***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hibbert (6.070,577). Hibbert shows protective animal cover 20 comprising a vest-like trunk cover 24 having a front upper opening (not specifically referenced) and a rear opening 32 which extends from the chest front to a point in the vicinity of the rear of the rib cage; a neck cover 38 having an upper opening and a lower opening, the covering extending downwards from the upper neck to the front upper opening of the trunk cover; the trunk cover having at least one lower front opening 34, 36 to receive the front legs of a pet; the trunk cover and neck cover being connected to form a body sock which covers the front portion of the pet's body to cover an exposed or gauze-dressed wound. The cover 20 is composed of a breathable elastic material and all the openings 32, 34, 36, 38 have expandably stitched hems to accommodate the donning and removal of the garment. It is considered that the expandably stitched banded portion 38 which covers a considerable portion of the neck is connected to the truck cover 24 by a seam.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3644

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 9, 11 and 14 the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

### ***Allowable Subject Matter***

Claim 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 9-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
